- Legal risk assessment and technical defense before regulatory authorities.
- Institutional engagement with public and private stakeholders, and ability to coordinate multisector strategies.

## PAOLA ANDREA BERMÚDEZ ROLDÁN

---

## PROFILE

Paola is an attorney with solid experience in national and international commercial arbitration, complex litigation, and strategic advisory across highly regulated sectors. She has handled high-impact disputes in telecommunications, infrastructure, road-safety systems, energy, oil and gas, data protection, technology, and construction. Her background includes significant cases before Ecuadorian courts and technical defenses before regulatory authorities in matters involving audit findings, administrative acts, and high-complexity financial disputes.

She also advises on investments and strategic projects in the energy and construction sectors, integrating legal, regulatory, and financial analysis. Her practice spans due diligence, contractual structuring, and legal risk management. She has authored multiple publications on mining and energy law, energy transition, institutional transparency, and gender perspectives in the energy sector, bringing a rigorous and strategic approach to institutional and corporate clients.

## EDUCATION

- Master's Degree in State Law with emphasis on Mining, Oil & Energy Regulation – Universidad Externado de Colombia (2015).
- Master's degree in administrative law – Universidad Técnica Particular de Loja (2012).
